IFR™ Probe Introducer enables fast and accurate diagnosis for an **optimize on-farm workflow** which allows you to provide animals with increased **safety during diagnosis**. This leads to enhanced veterinarians confidence and an **improved diagnosis experience**.

I-Scan® Ultrasound Goggle professional your L80

I-Scan® is ideal for BMV ultrasound machines. Every veterinarian should own this. You can see the image in bright sunlight or dark situations when I-Scan® is worn on your head and allows you to see the ultrasound image in front of your eyes.
